

MID-SOUTH FAMILY HOUSING NEWS & STORIES

Our President's Message

The month of June was a very busy month for Hunt Military Communities. As most of you saw in the recent letter we sent to each of you, we've heard loud and clear that we need to be more responsive to the needs and concerns of each of you, which means giving you a stronger voice and making sure that you are heard within our communities. To that end, we've undertaken a top-down review of our processes, policies, training programs, and the tools at our residents' disposal to ensure we fulfill our responsibilities. All of those changes are outlined in the letter you should have received. If you have not, please let your Community Director know as soon as possible.

Also in June, HMC's non-profit organization, the Hunt Heroes Foundation (HHF) had a very productive meeting with Stop Soldier Suicide (SSS). SSS and HHF have a very strong relationship, and this strategic meeting outlined ways that we can help support their mission in ending suicide among active duty military members, veterans and retirees. Stay tuned for more information on how this partnership will evolve and what you can do to support it. As always, if you are interested in learning more about the Hunt Heroes Foundation, or supporting its cause, please log onto huntheroesfoundation.org

John Ehle
President
Hunt Military Communities

Celebrate Independence Day Safely

Per Mid-South Family Housing Community Handbook: pg. 15 section 15.

The manufacturing, sale, storage, possession, transporting and/or use of fireworks and all incendiary devices are expressly prohibited on the Premises or in the Neighborhood. Violation of the provisions of this firework policy is cause for immediate termination of the Lease Agreement and eviction from the Premises.

Energy Saving Tips for the Summer Months:

Be Smart with Your Thermostat

Keep in mind that for every degree you raise your thermostat above 72, you save up to 3% on your cooling.

Keep the Sun Out and the Cool Air In

Try drawing the blinds during the hottest parts of the day, especially if your windows are facing south.

Wash with Cold or Warm Water

Avoid using hot water whenever possible. Because up to 90% of the energy used by your washing machine goes toward heating the water, doing your laundry on either the cold or the warm cycle will save you electricity.

Cutting back unnecessary energy use is an easy way to reduce energy consumption while saving money.
