MAINTENANCE TIPS

Regular home maintenance keeps your home safe, prevents costly repairs, and helps maintain its value. By fixing small issues early, you avoid bigger problems later—and a well-maintained home is simply more comfortable to live in. One important task is keeping your furnace or heat pump filter clean. A dirty filter forces your system to work harder, reduces efficiency, and leads to more dust in your home. If your filter is dirty or worn, it should be replaced. Air filters are included with your rent—just call the maintenance line at **(901) 677-0800 (option 1)** to submit a work order for a replacement.
